- North Sewer Plant Upgrades-State approved plans and specs; should begin advertising week of March 13. We have already begun advertising, though Town Engineer Plaisance doesn't remember the exact date. We will have a preconstruction conference on Thursday, 3/30/2023 and the bids are due on Thursday, 4/13/2023.
- Sewer Phase VII LCDBG-awaiting servitude acquisition and subsequent advertising
- Mitigation Project (Seawall)-met with Lafourche Parish Government on 1/17/2023; approved by the State and awaiting Federal approval
- LGAP Grant application (Police Unit)-submitted on 11/21/2022
- Infrastructure Grant applications-BRIC and Flood Mitigation Assistance Program submitted on 12/19/2022; still under review
- Consider authorizing the Mayor to sign a resolution to authorize GIS Engineering to submit a pre-application for the Clean Water State Revolving Fund to seek loan information, terms and potential subsidy money for certain Sewer projects. Town Engineer Plaisance advised that we would be submitting 2 pre-applications-1 essentially just for Cheramie Ln for around \$600,000 and 1 for Phase 8, which would

be for Cheramie Ln, but would also include Washington St and Pershing Ln for \$2,800,000. The State would then come back with terms to let us know what we have to pay over a 20-year period and what subsidy money we would receive. Technically we are applying for a loan for the whole thing, but they have money available to knock off some or all of those loan costs, so we won't know how much until we get the pre-application in. Councilman Willis Toups asked so we are at the mercy of the State to find out when and where. Town Engineer Plaisance advised that was correct and we will probably ask for 100% for both, but it will depend on economic factors. The pre-applications are due Friday, 3/31/2023. Councilman Mike Billiot presented a motion and Councilman Willis Toups seconded the motion authorizing Mayor Joey Bouziga to sign a resolution to authorize GIS Engineering to submit a pre-application for the Clean Water State Revolving Fund to seek loan information, terms, and potential subsidy money for certain Sewer projects as presented.
